MISSION STATEMENT

Our firm is committed to providing expert legal services to clients with the highest level of integrity, attention to detail, and communication. Our client's goal becomes our goal.

At the Fegley Law Firm, we do our best to keep our clients out of court. Litigation is time consuming, expensive, often a distraction, and at best uncertain. A negotiated settlement is often the preferred result. However, when litigation is unavoidable, we will be in your corner fighting tirelessly to achieve the objective you want.

In today's legal environment, it is not the size of the firm but the quality of the attorney who represents you that matters. At the Fegley Law Firm, the internet enables us to access the same databases of cases, legislation, law reporters, and other resources that used to fill libraries and require hours and hours of research. We stay on top of our cases with electronic filing and electronic access to the courts. You can review changes to your documents instantly and communicate with us when it is convenient for you. We choose to be proactive, rather than reactive, and let our clients choose to be as involved as they would like to be or only when they have to be.
